OUR STORY

ELETTO was formed in 2000 by passionate Canadian soccer entrepreneurs. *Eletto* is an Italian word that derives from the Latin *electus*, which means *elect* or *chosen*, the brand of choice. We incorporated the colours RED and BLACK to symbolize our beliefs and what we stand for. RED symbolizes our passion, desire and love for all we do. BLACK symbolizes the elegance and strength on how we conduct ourselves.

ELETTO has maintained a reputation for outstanding customer service and is known for having cutting edge designs and superior quality. Eletto has grown into a recognized soccer brand in Canada and receives strong support from professional clubs and youth organizations.

ULTRA-LITE BALL TECHNOLOGY

ELETTO's Ultra-Lite Ball was created to engage the first-time youth player and build their confidence with the ball, and inspire passion for the game.

Play the German and Dutch way

Lite Ball Technology was implemented in the youth soccer development program in Germany and the Netherlands in 2001. The technology was created for youth players to build confidence and skills the right way from a young age. The Lite Ball composition increases control, touch, ease of passing and shooting. A regular weighted ball is hard and heavy for youth and does not allow them to develop their game properly. Lite balls allow them to develop their skills and have fun at the same time.

Benefits (LNA-290/350)

- Bigger ball for youth players allows an easier transition to a size-5 ball.
- Lighter weight allows youth to develop skills faster, making it fun for them.
- Easier to move the ball around the field.
- Builds player confidence to master the ball and express technique.
- Allows youth to feel comfortable heading the ball.
- Ball's lightweight composition increases flight for control, touch, ease of shooting and passing.
